Q: Do Company executives need to present for the company assessment?

A: No, I am adept at providing remote interpretation. However, companies would gain greater benefit from on-site consultation because my personal interaction will stimulate the intuitive faculties and tacit skill-set of the workforce. We invite everyone in the Company to participate.

Q: What do you assess?

A: During an Intuitive Company Assessment, I interpret more than two dozen key areas and critical dimensions that I refer to as the “Dynamic Indicators” in my e-book, “Your Company’s Unseen Dynamics”.

Q: What does the Company need to do to prepare for an Intuitive Company Assessment?

A: Get your teams prepared for *new* knowledge generation, and be willing to shift culture! My role as Intuitive Business Advisor is to challenge learned assumptions; and expedite your execution strategy by providing target information to help your Company leverage knowledge and liberate power in organizational culture.
